Note 1: Generally the date of cessation of presumption of conformity will be the date of withdrawal ('dow'), set by the European Standardisation Organisation, but attention of users of these standards is drawn to the fact that in certain exceptional cases this can be otherwise.

Note 2.1: The new (or amended) standard has the same scope as the superseded standard. On the date stated, the superseded standard ceases to give presumption of conformity with the essential requirements of the directive.

Note 2.2: The new standard has a broader scope than the superseded standard. On the date stated the superseded standard ceases to give presumption of conformity with the essential requirements of the directive.

Note 2.3: The new standard has a narrower scope than the superseded standard. On the date stated the (partially) superseded standard ceases to give presumption of conformity with the essential requirements of the directive for those products that fall within the scope of the new standard. Presumption of conformity with the essential requirements of the directive for products that still fall within the scope of the (partially) superseded standard, but that do not fall within the scope of the new standard, is unaffected.

Note 3: In case of amendments, the referenced standard is EN CCCC:YYYY, its previous amendments, if any, and the new, quoted amendment. The superseded standard (column 4) therefore consists of EN CCCC:YYYY and its previous amendments, if any, but without the new quoted amendment. On the date stated, the superseded standard ceases to give presumption of conformity with the essential requirements of the directive.

Example: For EN 60034-2:1996, the following applies:

Cenelec	EN 60034-2:1996 Rotating electrical machines — Part 2: Methods for determining losses and efficiency of rotating electrical machinery from tests (excluding machines for traction vehicles) [The referenced standard is EN 60034-2:1996]	IEC 60034-2:1972 + IEC 60034-2A:1974	None [There is no superseded standard]	—
	Amendment A1:1996 to EN 60034-2:1996 [The referenced standard is EN 60034-2:1996 +A1:1996 to EN 60034-2:1996]	IEC 60034-2:1972 /A1:1995	Note 3 [The superseded standard is EN 60034-2:1996]	Date expired (1.6.2002)
	Amendment A2:1996 to EN 60034-2:1996 [The referenced standard is EN 60034-2:1996 +A1:1996 to EN 60034-2:1996 +A2:1996 to EN 60034-2:1996]	IEC 60034-2:1972 /A2:1996	Note 3 [The superseded standard is EN 60034-2:1996 + A1:1996 to EN 60034-2:1996]	Date expired (1.6.2002)

Note 4: The EN 60061-1, -2, -3, and -4 series have a particular structure and therefore the date of cessation of presumption of conformity indicated only affects the types modified by the different amendments.

Note 5: EN 60335-1:1994/A1:1996 supersedes standards EN 60335-2-19:1989 and EN 60335-2-20:1989. These two standards have 1.4.2004 as the date of cessation of presumption of conformity. The same applies to EN 60335-1:1994/A12:1996.

Note 8: EN 60598-1 covers the safety objectives of directive 73/23/EEC only if, in conjunction, Commission Opinion 2001/C 29/02 is taken into account.

Note 9: EN 60335-2-9:1995 covers the safety objectives of directive 73/23/EEC only if, in conjunction, Commission Opinion 2000/C 104/07 + 2002/C 300/04 is taken into account.

This list replaces all the previous lists published in the *Official Journal of the European Union*.
